Bob and Rick

Attached please find a table with EPA's clarifications and proposed resolution of selected "second tier" Round 2 Report comments that were provided by EPA on January 15, 2008. These clarifications are in response to the June 5, 2008 email from Keith Pine which provided LWG responses and requested clarification of the selected comments. The table includes a summary of EPA's original comment, the LWG response, and EPA's clarification and proposed resolution of the comment.

Please let us know if you have questions.

Chip Humphrey
